

Freedom of Information

Please read this fact sheet before completing the attached application form.

Freedom of Information

The South Australian *Freedom of Information Act 1991* (FOI Act) gives you a legal right to request access to any documents held by any 'agency' that the FOI Act applies to. This includes SA Ambulance Service (SAAS).

Applications for access to documents must be made in writing in accordance with Section 13 of the FOI Act and be lodged with the agency that holds the documents. For example, SAAS does not hold hospital or SA Police files and an application to those agencies would need to be made.

You can use the attached form to make an application to access documents or the online Freedom of Information application form at <https://www.sa.gov.au/topics/about-sa/government/FOI-application>.

Alternatively, you can send a letter or email to SAAS. Our contact details are located at the end of this factsheet.

Requesting Access to Documents

When making an FOI application, you will need to provide enough information to enable the correct documents to be identified. If you are uncertain, it is recommended that you contact the SAAS Freedom of Information Officer for assistance.

If you are seeking access to documents relating to your own or someone else's personal affairs, you will be asked to provide proof of your identity. If you are seeking access to documents on behalf of another person relating to their personal affairs, you will be asked to provide written consent signed by that person.

Access to documents can be provided in different ways, depending on how the information is stored. The different ways you can access documents include:

- inspecting documents in person at our Corporate Office in Eastwood with no copy provided
- requesting a copy of documents

Advice about how you would like to access the documents should be included in your FOI application.

How much does a FOI application cost?

There is a \$40.75 FOI application fee that must be paid to SAAS at the time you lodge your application.

Processing charges may also be applicable. SAAS will advise you of these charges once your application is received and processing of your application has commenced.

SAAS accepts payment by electronic transfer, money order or cheque.

The online FOI application form allows for payment by credit card for FOI applications to state government agencies and is available at <https://www.sa.gov.au/topics/about-sa/government/FOI-application>.

Further information about fees and charges applicable under the FOI Act can be found in the *Freedom of Information (Fees and Charges) Regulations 2018* and the *South Australian Government Gazette*.

What if I have a concession card or cannot afford to pay?

If you are the holder of a current concession card or if you can provide a valid reason why payment of the fee or charge would cause financial hardship, SAAS will waive or remit (reduce or refund) the application fee.

If you are a concession cardholder you will need to provide SAAS with evidence. For example, you can attach a copy of your concession card to your completed FOI application form. Alternatively, you will need to provide reasons why the payment of a fee or charge would cause you financial hardship.

Processing Requests for Access to Documents

After receiving your application, SAAS is required to deal with it in accordance with the requirements of the FOI Act and provide you with a decision in writing. This is called a Determination. The Determination will include SAAS's decision in relation to your request and, if access has been refused in full or in part, the reasons why this has occurred. SAAS will also advise you of your rights of review and appeal if you are unhappy with the determination.

In accordance with Premier and Cabinet Circular PC045, where documents are provided as a result of an FOI application for access to non-personal information, details of the application and the documents to which access is given, may be published on SAAS's public disclosure log. A copy of PC045 can be found on the Department of Premier and Cabinet website (www.dpc.sa.gov.au).

How long will it take?

A request for access will be dealt with as soon as practicable, or within 30 calendar days of it being received.

In certain circumstances SAAS may extend the timeframe for dealing with your application under section 14A of the FOI Act. SAAS will advise you within 20 calendar days if an extension is necessary, and why.

If SAAS has not extended the timeframe for dealing with your application and you do not receive a determination within 30 calendar days, the FOI Act deems that SAAS has refused your application. If this is the case, you are entitled to lodge an application for review. For further information you should speak to the SAAS Freedom of Information Officer.

Access to documents by State Members of Parliament

A Member of the South Australian Parliament who applies for access to a document held by SAAS is entitled to under the FOI Act to access the document without charge unless the work generated by the application involves fees and charges totalling more than \$1,000.

Access to patient records

A person who applies for access to patient records held by SAAS may be asked to provide photographic identification (driver's licence, passport etc) to confirm their identity. Persons applying on a patient's behalf will be asked for proof of written authority from the patient.

Please note SAAS does not hold individual patient files containing a complete record of all ambulance attendances for that person. In many cases we attend incidents where we do not know the name of the patient. You will be asked for details about the incident, such as date and location, to ascertain which incident you require records from.
